

TECHPLAST Sp. z o.o.

## Environmental Policy

The main objective of the Environmental Policy, which is the least impact on the natural environment in the process of packaging services, shall be implemented through the partial objectives:

- maintaining the awareness of environmental protection among employees.
- Continuous improvement in the effectiveness of control activities. Prevention of pollution and the negative impact on the environment through the efficient identification and management of significant environmental aspects.
- Conducting rational and environmentally safe waste management through the optimization of the building demolition process as well as segregating, storing and transferring waste for processing or utilization.
- Rational management of raw materials, water, electrical and heat energy.

The Company's Management Board declares:

- compliance requirements and environmental standards,
- taking continuous actions in the field of environmental protection,
- gradual improvement of work safety and health protection of employees in company.

The Company's Management Board ensures that Environmental Policy is understandable, implemented and maintained at all ranks of organization and is publicly available for the parties concerned.
