

# Product Data Sheet

## TECHFORM BC

### Description:

TECHFORM BC is a preparation for cleaning brakes and metal parts. It's chlorine-free agent for cleaning disk brakes, drum brakes, surface of injection molds and engineering tools. Contains a modified solvent composition that perfectly dissolves oils, greases, blooms, heat marks, hardened lubricants and carbon deposits.

### Advantages:

- Easy-to-use.
- Effective in small amounts.
- Does not cause corrosion.

### The fields of application:

- Cleaning of injection molds.
- cleaning and degreasing metal surfaces before gluing, painting
- ATTENTION. May adversely affect rubber elements and painted surfaces.

### Properties:

- Form: aerosol, colourless.
- Odour: characteristic.
- Density: 0,79 g/cm<sup>3</sup>
- (In)flammability: inflammable.

### Packaging:

- Aerosol 500 ml, 12 pc. in carton

### Directions for use:

Clean the surfaces mechanically, then apply Techform BC from a distance of about 20-30 cm to wet the surface. Wipe with a cloth, repeat the operation.

The cleaned surface should be at room temperature. The cleaning effect is reduced on warm elements.

Each time check the effects of the preparation in an invisible place. Techform BC can damage rubber elements and painted surfaces.

### Guidance for users:

The product contains flammable liquids and gases. During application, the room should be well ventilated. Do not spray an open flame. Protect against ignition source. Keep away from children. Store at temperatures below 50°C, away from sources of heat and direct sunlight. Before use, read the product safety data sheet.

### Warning:

The product is intended for industrial use only. The information contained in the card presents the current state of knowledge and experience. The information provided can not be used as a substitute for the necessary tests, which alone can ensure the user that this product for it is purposes. It is the user who is responsible for compliance with applicable legal provisions. Please, make sure that the user in possession of the latest version of the MSDS.
